The Jumping Committee approved the agenda.

Aga Baczkowska was approved as secretary.

4. Approval of the Minutes of the Jumping Committee meeting in Cost Navarino (GRE), 15.05.2018

The minutes were sent out on 31.05.2018.

No remarks have been registered at the FIS Office.

The Jumping Committee approved the minutes.

5. Report of the Sub-Committees

5.1 Jumping Hills

Hand Martin Renn informed the Committee that despite measures agreed upon during a meeting in Costa Navarino (GRE) during FIS Congress Vikersund has not followed up on the results and as an outcome the flying hill has no valid certificate. **see enclosure**

5.2 Equipment and Development

The Chairman, Bertil Palsrud (NOR) reports from the meeting in the morning of the 28th September 2018:

- There were no major changes regarding the equipment introduced last spring. The procedure for body weight control was changed, and athletes are being weighted without boots and keils/jets now. Four different new BMI tables were introduced for consideration. FIS staff will collect data and statistics throughout winter season on ski length /body weight relation and general tendency.
- Presentation from Inggard Lereim, member of the FIS Medical Committee. A medical study on female ski jumpers was carried out last winter season by medical students of Oslo University. The outcome proves that there are not only fewer and fewer injuries, but that they are of less severe nature. This shows that relevant preventive measures have been undertaken by teams and coaching staff. Female ski jumpers are getting stronger and better trained than a few years ago. In the future, similar studies are planned for female NC athletes, which might be a good way of finding out if Nordic Combined strength is in anyway preventing injuries in Ski Jumping. The main reason for injuries in Ski Jumping in the last few years seems to be the supination of the knee caused by / brought about by binding rotation. New proposed BMI tables will have to be examined with help of outside expertise.

5.3 Officials, Rules and Control

The Chairman, Ueli Forrer (SUI) reports:

Professionalisation of FIS Education:

- Our e-learning is on a very professional standard
 - Opportunity and obligation for all officials for permanent education
 - Tests for candidates will be done with the help of computers
 - Each official can test him/herself with studies at home
 - We have the opportunity to check the interest
 - The e-learning system is a living tool
 - Is connected with the FIS website
 - So all changes are available on time for all officials in one tool

Proposals from Walter Hofer:

- Minimum age limits existing for World Cup; Walter Hofer proposes to introduce these also for COC and FIS Cup series.
Unanimously approved by the Committee.
- Current qualification criteria for Ski Flying competitions – 1 WC or GP point; Walter Hofer proposes to go back to older rule of 1 COC point, due to problems with relevant number of entries for team events.
Unanimously approved by the Committee.
- Ski Jumping is the only discipline left with organisers being obliged to pay pocket money to participating athletes, this causes some legal cases in some countries; Walter Hofer proposes to use the funds to introduce qualification winner prize: CHF 3'000 for SJ World Cup competition; CHF 5'000 for Ski Flying competitions
Approved with vast majority.

5.4 Youth and Children's Questions

The Chairman, Harald Haim (AUT) reports:

see enclosure

5.5 Analysis summer 2018

- **Analysis Grand Prix 2018**
Walter Hofer, Race Director

In general the best organised GP series ever!

Only a few remarks are worth to be mentioned:

- Hakuba – needs to upgrade the watering system
- Chaikovsky – needs to upgrade the wind nets
- Low participation from some nations in events held in JPN, RUS, ROU.

Walter Hofer proposes introduction of new GP organiser selection criteria:

- no World Cup organiser of the very same competition season hosts a GP event
- or only 1 GP organiser per nation
- or the NSA's from selected organiser nominates a certain number of athletes to be entered in all GP events per season.
